

THE GLOBAL GAG RULE

THE GLOBAL GAG RULE, known by its supporters as the Mexico City Policy, is one of the most harmful policies ever levied on United States foreign assistance funding. It penalizes foreign NGOs that provide a full range of health information and services that are legal within their own countries.

The policy has been reinstated by every Republican president since Reagan...

...and it has been rescinded by every Democratic president since Clinton.

The Global Gag Rule requires foreign NGOs to pledge the following as conditions for receiving U.S. global health aid:

- ✗ **THEY WILL NOT** “perform or actively promote abortion as a method of family planning.”
- ✗ **THEY WILL NOT** provide abortion counseling, referrals, or services, even if they use their own non-U.S. funds.
- ✗ **THEY WILL REFRAIN** from advocating to expand access to safe abortion in their own countries.

Trump’s expanded version of the Global Gag Rule applies to all global health funding, including treatment for HIV/AIDS, malaria, tuberculosis, and more. It had previously only applied to family planning programs.

THE GLOBAL HER ACT

Support the Global HER Act to uphold global health, empowerment, and rights.

The Global HER Act will repeal the Global Gag Rule once and for all, and will do the following:

- ✓ **ALLOW NGOs** receiving U.S. aid to use non-U.S. funds to provide safe abortion, if it is legal in their countries.
- ✓ **UPHOLD** patients' right to a confidential doctor/patient relationship, and providers' right to free speech.
