

WINGS GUATEMALA

It all begins with reproductive rights

OUR MISSION

WINGS provides quality reproductive health education and services to Guatemalan adolescents and adults, primarily those living in rural areas and in conditions of vulnerability.

WINGS envisions a future where all Guatemalans thrive and are able to fully exercise their sexual and reproductive rights, free from discrimination and inequities.

ANTI-RIGHTS POLITICS

In reaction to the election of the first socially-minded administration in generations, our work is much more under attack from the anti-rights movement in Guatemala.

The global shifts in the philanthropy landscape and funding for sexual and reproductive health have made grant funding extremely competitive and individual donations ever more necessary.

FUNDING CHALLENGES
